

Eco Tip for January 2023—Creation Care

New Year, New Start. Your tip for January is to carry out a lifestyle audit and set some new goals to reduce your carbon footprint and help enhance the biodiversity around you.

The Eco Church - A Rocha organisation reminds us that “changing our personal lifestyles is essential if we’re to worship God with heart, soul, mind and strength – and love our neighbours as ourselves”.

Creation Care have created a great survey which allows you to go for bronze, silver or gold awards in each of 7 categories. It’s really easy to do on your own or as a family group. Have a go now and St Andrews Histon Eco Tips will remind you to re do this in the summer to measure progress.

<https://creationcare.org.uk/>

If you want to chat to others about the survey, or share your own top tips – you are invited to join the St Andrews Eco Church WhatsApp group. Please contact Sue Free on 07443 640096 and request to join.
