

Eco Church News—April 2025

Spring is here—it's that time of year when we get itchy to do a good clean-up in/of our houses... why not do one on all aspects of your lifestyle?

... We invite you to complete the Creation Care survey for your household or as an individual.

[Creationcare.org.uk/members/](https://creationcare.org.uk/members/)

(you'll create an account, so you can come back and update later).

There are sections covering all aspects of life, including worship and prayer, home, travel and community. Get points for all the things that you are doing to improve the impact that you have on the environment, find some areas to work on and see how close you are to bronze, silver or gold. If you have young people in your household, make sure to ask for their suggestions too.

Upcoming events in the village
